SUMMARY

Computer Engineering graduate with one year of experience in **web development**, specializing in **Front-end** technologies such as **React** and **TypeScript**. Enthusiastic about **UX/UI** design and user-centered development, focusing on creating intuitive interfaces, enhancing usability.

SKILLS

Languages: Portuguese (Native), English (Fluent), Italian (Beginner)

Programming: HTML/CSS, SASS, Tailwind CSS, JavaScript, jQuery, TypeScript, React, Node.js, Express.js, PHP, SQL, Python

Tools: Git/GitHub, Linux, Postman, Bootstrap, Visual Studio Code, MySQL, SQL Server, Figma, Adobe Illustrator, WordPress

EXPERIENCE

Eidosmedia

Tech Presales

January 2025 – Present

- Developed solutions that highlight the software core values to prospects and customers, e.g. J.P. Morgan, in the form of proof-of-concept using **JavaScript**, **jQuery**, **Node.js (Express)**, **CSS**, **XML** and **REST API** integrations tested with **Postman**, depending on project requirements;
- Support the preparation of responses to Requests for Proposals (RFPs) and other customer inquiries;
- Participate in product demonstrations and contribute to demo preparations;
- Collaborate with sales and product teams to gather and analyze customer requirements;
- Worked in a **Linux** based environment for development and testing.

WideSkills - Instituto Superior Politécnico Gaya

Internal Internship

February 2024 – July 2024

- Developed a mental health awareness website as a final course project. Planned and prototyped the **UX/UI** using **Figma** and **Adobe Illustrator**, and implemented it with **HTML**, **CSS**, **JavaScript** and **PHP** to promote awareness among university students and combat misinformation on the topic;
- In addition to the interactive and educational content designed to address the lack of knowledge about mental health issues, implemented a simple chatbot, using **Python (Flask)**, to answer frequently asked questions and encourage user engagement.

WeCreateYou

Curricular Internship

March 2021 – August 2021

- Worked primarily with image editing, using **Adobe Illustrator**, with the aim of improving user experience skills.

PROJECTS

Tattoo Studio Website

- Designed and developed a responsive website for a tattoo studio to showcase tattoo styles, artist portfolios and studio information. Built the interface using **React** with **Vite**, styled with **Tailwind CSS** and structured with **React Router** for seamless navigation. The UX/UI was planned and prototyped in **Figma** to ensure a clean and user-friendly experience.

Football Teams & Players Website

- Developed a web application that displays information about football teams and players by fetching data from a public sports API. Implemented asynchronous **React** hooks for data fetching and state management, styled with **Tailwind CSS**. Used **React Router** for client-side navigation and built a **Node.js** backend to handle **API requests**.

EDUCATION

Instituto Superior Politécnico Gaya

Bachelor's degree in Computer Engineering

2021 - 2024

Instituto Superior Politécnico Gaya

Higher Professional Technical Course in Information Systems Technologies and Programming

2019 – 2021
